“I've just undergone my second session, and so far I've been very impressed with the results. There is significantly less hair already and I can see a hair free future looming...”

Alexa Francisco, West Hampstead

“Coming to Vervena is always a great experience. The Vervena staff are reliable, the service is great and I leave the salon on a cloud.”

Melissa Hoxton, Tower Bridge

# Permanent Laser Hair Reduction

If waxing, shaving or painful laser treatments are not your thing, why not try our Soprano Laser Hair Removal treatments.

*"It really feels like a hot stone massage"*

The revolutionary new IN-Motion™ technology (cleared by FDA 2005) treats the problem of unwanted hair painlessly and quickly.

*"Whatever Your Hair Problem*

*Soprano Will Deal With It."*

Safe, Gentle, Pain Free, Highly Effective with Excellent Results, Treatments are Fast, Efficient and FDA Approved.

Pain-Free, Hair-Free™, Soprano gently heats hair follicles with powerful energy. You stay comfortable through the whole treatment. Nearly every part of the body and face can be treated.

No More Embarrassment or Discomfort.

## What is Soprano?

Soprano is a diode laser that uses IN-Motion™ technology. The hair follicles are heated gradually and since the laser is constantly moving, the treatment area can be bigger and is over more quickly. The superior cooling head ensures that there is only a warming sensation that is often compared to a hot stone massage.

## Benefits of Soprano

*Soprano Outperforms all Other Lasers.*

- Quick and more effective, usually 6 treatments is enough
- No pain and no downtime, so you can return to normal activities straight away
- More complete and even in coverage and can treat even very fine hair
- For any area of the body like neck, face & bikini areas
- The Soprano treatment is long lasting
